### The CEO Update

Nya:weh Sgeno Seneca Nation Citizens,

The 2014 fiscal year for Seneca Holdings ended in September and during the last twelve months our subsidiaries brought in over \$70 million of awards, surpassing the total from 2013. The subsidiaries of Seneca Holdings continue to serve a diverse customer base and we expect all of our companies to continue growing in fiscal year 2015. The portfolio of customers served by our subsidiaries includes both government and commercial clients, including the U.S. Air Force, Exxon Mobil, the Defense Security Cooperation Agency, the National Wild Turkey Federation, and many more.

In the final quarter for the fiscal year, Seneca Holdings subsidiaries had several notable wins, including: 1) construction of a flight simulator facility at the Niagara Falls Air Force Base for \$5.2 million; 2) renovation of HVAC system at Fort Drum for \$4.4 million; and 3) project management services for a total of \$4.5 million for the Naval Surface Warfare Center in Panama City, Florida.

The subsidiaries of Seneca Holdings have demonstrated our ability to deliver high-quality products and value-added services across the entire United States. Our subsidiaries have provided services or products in 35 states across the country, including facilities management in Northern California, telecommunication project supervision in Florida, construction and design in South Carolina, and safety and security capabilities in Virginia. Our subsidiaries have also been able to perform work locally with the Seneca Gaming Corporation, on-territory broadband technology in Cattaraugus, and federal construction contracts in Niagara Falls and Fort Drum (located in upstate New York). Whether our work is local or on the other side of the country, Seneca Holdings and our subsidiaries are building the Seneca brand by offering exemplary services and products at competitive prices to all of our customers.

We recently launched the new Seneca Holdings website: [www.senecaholdings.com](http://www.senecaholdings.com). Please visit our website for updated information on our companies, the latest news, and employment opportunities throughout our entire organization.

Seneca Holdings is excited about the opportunities available to all of our subsidiaries in 2015. The government marketplace

remains highly competitive but we have made tremendous inroads with current and prospective clients due to our established past performance capabilities. We will continue to execute on near-term objectives while remaining vigilant about the long-term mission of Seneca Holdings. Our strategy will continue to be guided by our motto of *Investing for the Seventh Generation*.

As always, we thank you for your support as we continue to enhance and expand the economy of the Seneca Nation of Indians.

Nya:weh,

Dave Kimelberg

## SCMC, LLC AWARDED \$5.2 MILLION CONSTRUCTION CONTRACT FOR FLIGHT SIMULATOR AT NIAGARA FALLS AIR RESERVE STATION

Niagara Falls, NY – SCMC, LLC was awarded a \$5.2 million contract for the construction of a flight simulator facility at the Niagara Falls Air Reserve Station. The flight simulator is for the C-130 cargo planes stationed at the base and other U.S. bases around the world. The 11,250 square-foot facility will house a state-of-the-art simulator which will have full-motion and visibility and provide a platform to fulfill flight training at a lower cost. It is anticipated that this simulator will bring over 450 members of C-130 crews to the base each year for training and provide approximately 18 full-time jobs.

A ground-breaking ceremony took place in early August with representatives from the Seneca Nation of Indians, the Niagara Falls Air Reserve Station and local politicians, including U.S. Congressmen and county officials. The construction is expected to be completed by the end of 2015. “We’re committed to providing an exemplary final product,” stated David Kimelberg, CEO of Seneca Holdings (parent company of SCMC, LLC), who was on hand at the ceremony. SCMC, LLC will continue to look for opportunities to provide construction services in Western New York and throughout the state.

# Seneca Telecommunications Approaches One Year Mark on SCES Project

**Cattaraugus Territory –**  
Seneca Telecommunications LLC, a subsidiary of Seneca Holdings LLC and a wholly owned subsidiary of the Seneca Nation of Indians, completed the critical infrastructure to provide

residential wireless Internet service for Nation Members' in the territory. The major components deployed for this new Nation wireless Internet network include new towers, antennas, and wireless points-of presence equipment. The Nation's Information Technology (IT) Department installed a new ISP circuit for the additional bandwidth necessary to serve the Nation members. The new service will provide new and improved wireless internet connectivity

to the homes on the Cattaraugus Indian Territory. Residential installations have begun for the Wi-Fi Services with the installation and monthly basic service level (speed) of 768kbps offered at no cost to members of the Nation. To date, over 150 homes have been successfully installed by Tribal members, who are employed by Seneca Telecom as installers and customer service technicians. With the support of the Nation and assisted by our partner, Resolute Partners, Seneca Telecom expects to install the Wi-Fi service to over 400 Seneca homes before the end of 2014. If you have not registered for the Wi-Fi service connection in your home, you can do so by calling 1-888-322-7882, at no cost to Nation members.

## Intern Update

In August, Ben Renshaw (Wolf Clan) completed his Summer Internship with Seneca Holdings, LLC. During the internship program, Ben was able to get first-hand experience in finance and accounting roles, attended monthly board meetings, and represented the Seneca Nation of Indians at the Native American Contractors Association's Emerging Leader conference in Washington, D.C. in July.

"This year's internship was very helpful to me in many ways. I felt like I learned even more than last year both in my profession and outside of it. Being able to get hands-on experience doing numerous activities, such as budget reports, financials, Human Resources requirements, and building applications, was very beneficial to me. Everyone on staff was very helpful to me and answered any questions that I asked and they even had me explain the process of my activity to make sure I knew not only how to do it but also why we were doing it. In addition to the workload and staff, I also benefited from the networking opportunities created by my internship. I was able to network not only with NACA members from Tribes across the country but also policymakers and business professionals in the Capital Region. My internship has laid the foundation for my future, especially towards my long-term goal of working in Indian Country down the road. My internship was tremendously helpful to me from maturing as an adult to strengthening my skills in my profession."

Ben will be entering his senior year at Buena Vista University in Storm Lake, Iowa and expects to graduate in May 2015 with a dual degree in Accounting and Business Management.
