The CEO Update

Nya:weh Sgeno Seneca Nation Citizens,

Seneca Holdings, LLC has reached the midway point for Fiscal Year Ending (FYE) 2015 and looks forward to growing the company even more in the second half of the year. The subsidiaries of Seneca Holdings continue to execute on several notable projects. SCMC, LLC has employees servicing facilities across the country through an environmental contract with the Air National Guard and is wrapping up the company's construction project on the National Wild Turkey Federation's headquarters in South Carolina. Seneca Telecommunications, LLC has received positive recognition on its work with the Security Cooperation Enterprise Solution (SCES) Program, and Executive Protection Systems, LLC has acquired several new customers on contracts over the last three months.

On the Cattaraugus Territory, Seneca Telecommunications, LLC continues to develop the broadband network for the Seneca Nation. Over 300 residences have had broadband services installed and the company is constructing new towers to provide additional coverage for members of the Seneca Nation. The team at Seneca Telecommunications, LLC will be conducting several upcoming Wi-Fi forums with the details included on the following pages.

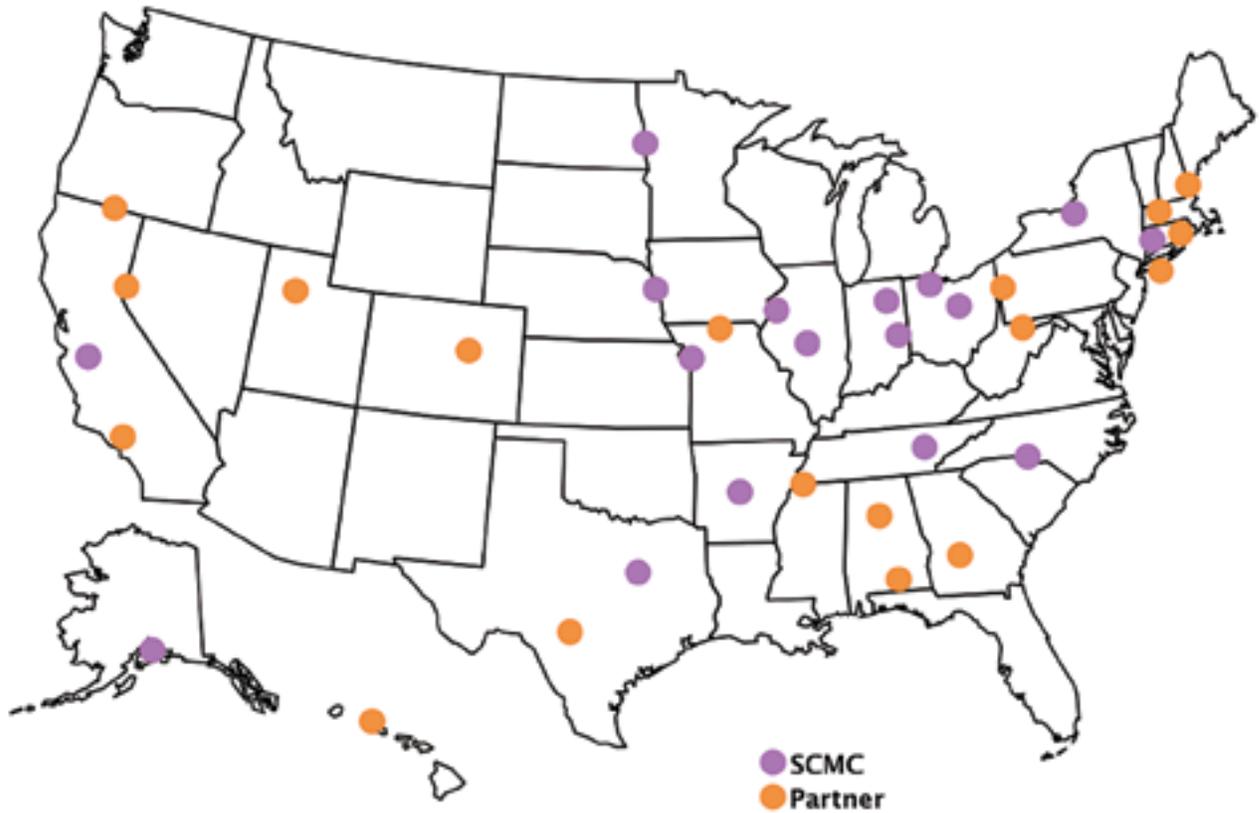

In February, Seneca Telecommunications, LLC was awarded a multi-year, Omnibus Support Services, IDIQ contract supporting the Office of the Assistant Secretary of the Army (OASA) Installations, Energy and Environment. At the Pentagon and Ft. Belvoir (Virginia), Seneca Telecommunications, LLC will assist with developing policies, strategies and programs focused on: energy efficiency, security, sustainability, health risk management, environmental compliance, and other services for the various Deputy Assistant Secretaries who are responsible for these initiatives and policies. The contract period is through February 2018, with a contract ceiling value of \$20 million.

Seneca Holdings, LLC will again be offering a summer internship program for any enrolled members of the Seneca Nation. The internship program is available for any college-level student majoring in finance, accounting, marketing or any other business-related field. Additional information on the program can be found in this newsletter or at www.senecaholdings.com/careers.

Although the year is not over and challenges remain, Seneca Holdings has high expectations for the remaining months of FYE 2015. As always, we are committed to bringing economic benefits back to the Seneca Nation of Indians and are grateful for the support from our members and community.

Nya:weh,

Dave Kimelberg

SCMC, LLC AWARDED \$6 MILLION BIO-ENVIRONMENTAL ENGINEERING CONTRACT FROM AIR NATIONAL GUARD

Tampa, Florida – In September 2014, SCMC, LLC was awarded a \$6 million contract by the Air National Guard (ANG) to provide nationwide bio-environmental engineering technical support.

Through the contract, SCMC, LLC services 60 bases, including Hawaii and Alaska, with mission-specific support functions, including comprehensive industrial hygienist services for documenting occupational health conditions, assessing exposures to chemical, physical and biological hazards, and providing training and support to comply with OSHA regulations for activity at each base facility.

As part of the contract, SCMC, LLC conducted a bio-environmental engineering training seminar held in March in Annapolis, Maryland. The three-day workshop was attended by dozens of individuals, including 50 bio-environmental engineers from across the country. The seminar included topics, such as industrial hygiene exercises, ventilation surveys, software training and updates, and wing support programs.

SENECA TELECOMMUNICATIONS CATTARAUGUS WI-FI PROJECT UPDATE

Seneca Nation. The premium service option is unlimited downloading with speeds up to 5mbps for \$29.99 per month.

As part of the Community Outreach for the Wi-Fi Project, we have set up a series of Wi-Fi Forums and attended the Seneca Nation Community Fair Week in early April.

- On April 1, we participated in the “Cattaraugus Community Clean Up” where we walked a mile of the Cattaraugus Territory and picked trash/debris to help beautify the Cattaraugus Territory.
- On April 2, we attended the Seneca Nation Community Fair where we hosted a table and discussed the status of the Wi-Fi Broadband Project and answered community questions.

Wi-Fi forums are held at the Cattaraugus Community Center Multi-Purpose Room, and you can find these events on the Seneca Nation Calendar, in the Cattaraugus Community Center event schedule, or via fliers on bulletin boards in all Seneca Nation government buildings.

Owned by the Seneca Nation of Indians

Cattaraugus Territory, Seneca Nation

– Seneca Telecommunications LLC, a subsidiary of Seneca Holdings, LLC and a wholly-owned subsidiary of the Seneca Nation of Indians, completed the first phase of critical infrastructure to provide residential

wireless Internet service for members on the Cattaraugus Territory. To date, over 310 homes have been successfully installed by Nation members, who are employed by Seneca Telecommunications as installers and customer service technicians.

The project is currently in Phase II of the architecture build-out. This phase addresses the areas of the Cattaraugus Territory that are unserviceable. Phase II consists of three tower repeater sites with two completed and one under construction. Expected completion date for all three towers is by the end of May 2015. This phase will provide 95% of the Cattaraugus Territory with broadband internet service.

The service options offered are unlimited downloading with a speed of 768kbps for basic service to residences. This basic service is offered at no cost to members of the

Seneca Holdings 2015 Internship Program

As the investment arm of the Seneca Nation of Indians, Seneca Holdings is providing a summer internship program for an undergraduate Native student who is majoring in finance, accounting, management or another business-related field (with preference given to enrolled members of the Seneca Nation).

The Seneca Holdings internship program is a nine-week summer schedule primarily based in the Buffalo, NY satellite office. All internship participants will receive a stipend and be responsible for their own travel and lodging arrangements during the course of the program in Western NY.

The selected applicant will be given various responsibilities based on his or her specific capabilities, skill level and areas of interest, which may include financial analysis, investment due diligence, accounting functions, HR compliance, marketing and branding, promotions, or other work on behalf of Seneca Holdings and its family of companies.

All interested applicants can visit www.senecaholdings.com/careers for more information on the program or contact Seneca Holdings at (716) 945-8142. Applications are due by May 15, 2015.
